The details showing targets and achievements for establishment of new Primary Health Centres and Community Health Centres during 1993-94 are given in the enclosed statement. (See below). Allocation of funds for new Sub Centres, Primary Health Centres & Community Health Centres is made under the State plan Minimum Needs Programme. The Centres are to be established as per population norms which have already been achieved in many cases. Under achievement is mainly due to financial constraints.

The Eighth Plan aims at consolidation of the existing infrastructure rather than major expansion.
